INTEREST

I love to go on adventures and explore new things. In my spare time I like to play video games and read books particularly biographical and theoretical books.

PROFIEL

I am a self-taught software developer who understands core programming concepts and is driven to achieve greatness. My goal is to grow both as a developer and as an individual by continuously expanding my skills, solving complex problems, and contributing to meaningful projects.

EDUCATION

Bachelor of Science, Marketing management, Sept 2018 – June 2022

Hoge school van Amsterdam

Bachelor of Arts, Social work, Sept 2021 - May 2022

I got my degree through Opstapp. It is an organization that provides training for healthcare assistants.

WORK EXPERIENCE

WOW Care (Own company) March 2019 - Apr 2025

- As a Healthcare assistant, I help minors navigate through challenges to achieve stability and progress.

Calco, IT traineeship, Sept 2024 - Nov 2024

- At Calco, I got to learn the basics of IT through multiple courses.
- Teamwork, performing under pressure and critical thinking were the focus during the traineeship.
- I decided to leave the IT traineeship at Calco after two months due to a misalignment between my personal vision and the company's approach.

REFERENCES

Kendall Suijkerbuijk, Teamleader at Amerpoort.

"Serhat was a valuable colleague and a great addition to our team. He is a strong critical thinker, consistently demonstrating his ability to engage thoughtfully in complex discussions. Serhat has a genuine interest in understanding problems and finding effective solutions. He collaborates well with others and is a true team player."

Jeroen van Schaik, Manager at Reinaerde.

"Serhat joined the team at a time when it was facing significant challenges. He was brought on to help rebuild the team and provide guidance to both newcomers and younger members. Despite being under considerable pressure alongside his colleagues, Serhat played a key role in stabilizing the situation. He communicated clearly and effectively, helping to align the team and foster collaboration. Together, they laid the foundation for the future success of the project."
